

Connecting global employers with global student talent

Colleges: An Opportunity for Your International Students to Connect With Employers!

It can be difficult for international students studying in the United States to connect with potential employers. Through the NACE International Student Virtual Career Fair, students can have direct access to employers offering home country opportunities or opportunities in the United States—in one convenient location.

The fair will offer the following types of career opportunities:

Full-time, summer internship, co-op, and temporary/contract opportunities.

Student Eligibility

The fair is open to all **international** students earning associate, bachelor's, master's, or Ph.D. degrees who are:

Currently studying in the United States and attending NACE-member colleges and universities who:

wish to return to their home country for full-time or internship opportunities.

are currently pursuing one-year Optional Practical Training (OPT) and/or long-term opportunities in the United States.

are currently pursuing summer Curricular Practical Training (CPT) internships in the United States.

Employer Participation

Employers may fit any of these profiles:

U.S. employers with operations abroad seeking to expand their international work force;

Global employers seeking candidates studying in the United States who wish to return to their home countries for an internship or following graduation; or

International employers with offices in the United States looking to hire candidates with international skills.
