Connecting to FoxNet

**iPhone/iPad:**

Open your device’s settings

Go into “Wi-Fi”

Then click on FoxNet
A login box should pop up asking for your credentials; enter your Marist account and password.

You will be prompted to accept the FoxNet security certificate.
Once connected to FoxNet, your web browser will automatically open to be redirected to the following webpage where you must read and agree to Marist's acceptable use policy:

After reading and accepting the acceptable use policy your computer is ready to use the network. You should be able to browse to wherever you want to go. If you cannot get anywhere, try turning your wireless off and back on again, or try rebooting your device.
