ABOUT THE PROGRAM
The Master of Arts in Integrated Marketing Communication (IMC) is a fully online, 30-credit hour graduate degree program that provides students with a cross-disciplinary educational experience that mirrors workplace dynamics in the once "siloed" fields of advertising, brand management, corporate communication, marketing, public relations, strategic communication and sales. Taking courses offered through a unique collaboration between the School of Communication and the Arts and the School of Management, students will learn to thoughtfully approach and develop IMC plans aimed at engaging successfully diverse and global audiences. With strong emphases on quantitative, qualitative and analytical skills, students will learn to develop, implement and assess marketing communication (MARCOM) plans that engage diverse audiences. Starting with the fundamentals of IMC and marketing, students will be introduced to the different MARCOM tools, such as advertising, public relations and social media. Moving through the curriculum, students will learn about the different research tools and their practical uses in conducting strategic and evaluative research. Throughout the curriculum, an outside-in approach is emphasized, i.e., a data-driven customer-centric approach that will focus on understanding the processes underlying consumers' and constituents' thoughts, feelings, decisions, and behaviors. More specifically, students will learn about consumer/constituent judgment and decision processes, attitude formation and change, consumer information processing and reactions to persuasive communications, consumer/constituent-brand relationships, affective, cognitive, and motivational determinants of consumer/constituent behavior, family and group decision processes, and cultural and individual differences in consumer behavior. In their capstone course experience, students will work in teams, applying knowledge gained and skills developed toward the development of an IMC campaign plan.

At the end of this program students should be able to:

- Understand the theory of consumer behavior and marketing segmentation strategies
- Be able to demonstrate strong research, analytical and strategic decision-making skills
- Be able to write effectively for diverse audiences
- Understand the concept of branding and the strategic importance of building brand equity
- Have a good grasp of the traditional and nontraditional MARCOM tools
- Be able to develop an IMC campaign plan.
