MISSION AND OBJECTIVES

The School of Management has offered the Master of Public Administration degree program since 1980. It rapidly became one of the most popular MPA programs for working adults in New York State.

The MPA program’s mission is to provide students with the knowledge, skills, and values to be professionally competent and ethical leaders of a diverse work force in public and nonprofit organizations within the context of a global society. The curriculum links theory and practice by emphasizing contemporary issues grounded in the historical foundation of public administration. Designed to meet these objectives, and based on standards from the National Association of Schools of Public Affairs and Administration (NASPAA), the curriculum stresses the following program goals:

- Integrate knowledge of the key theories across the disciplines of public administration
- Develop the skills necessary for managing public and nonprofit organizations effectively, and
- Embrace sound values in the ethical management of public organizations.

PROGRAM OVERVIEW

MPA students are required to complete a total of 42 credits. Specifically, the program is comprised of three Foundation courses (9 credits), eight required Core courses (24 credits), and three Elective courses (9 credits). Students may be waived from up to three Foundation courses if the following conditions are met: (1) comparable undergraduate courses were completed within the two years prior to acceptance into the MPA program, (2) a grade of “B” or better was earned in the designated courses(s), and, (3) with approval of the Program Director at the time of admission. In addition, students may be waived from the internship if they have two or more years of full-time professional work experience. This decision is made by the Program Director at the time of admission only. For the remaining 9 Elective credits, students may choose to group their Electives in one of the three Concentration areas offered: public management, ethical leadership, or health care administration. Each Concentration area is defined by three specific MPA courses which must be completed to have the Concentration listed on the student’s transcript.

Students typically start the program with MPA 500 – Introduction to Public Administration, although exceptions may be made upon approval of the Program Director. The capstone course, MPA 699 – Innovation in Public Administration, requires students to conduct independent, self-driven research that integrates concepts from across the MPA curriculum. To qualify for admittance into the capstone seminar, the candidate must have completed all prerequisite courses and be in good academic standing (GPA of 3.0 or better). We do not require a thesis or comprehensive examination as part of the MPA program requirements.
MPA FOUNDATION COURSES (9 CREDITS REQUIRED, WAIVABLE)
A student may be waived from one, two or all three MPA foundation courses at the
time of admission to the program based on criteria described above.

MPA 501  Politics and Policy
MPA 505  Human Resource Management in Public Organizations
MPA 508  Statistics for Public Managers

MPA CORE COURSES (24 CREDITS REQUIRED, 3 CREDITS WAIVABLE)

COURSE FORMAT & SCHEDULING

Students may pursue the MPA program in a hybrid (face-to-face and online sessions), fully online, or through a combination of both – whatever best suits their needs. The face-to-face component of the hybrid courses are at the Fishkill Executive Center, and at sites in Albany and NYC. Hybrid courses and online courses cover the same content, have identical learning goals, and are taught by the same faculty. The key difference is the delivery format.

Courses are offered in 8-week segments or “rounds.” Round 1 courses run the first 8 weeks of each semester. Round 2 courses run the second 8 weeks of each semester. The face-to-face component of the hybrid courses are offered over the same 8-week segments with meetings one night per week.

HOW ONLINE COURSES WORK

Marist College, a recognized leader in the use of technology in the classroom, was the first college in New York State to gain approval to offer its entire MPA program online. Students juggling work responsibilities, military duty, travel requirements, and family obligations can pursue their MPA from the convenience of their own keyboards, whenever and wherever they may be. iLearn instructional technology enables students to interact extensively with their instructors and classmates. Online students log on according to their own schedules, when it is most convenient for them. Communication is continuous via e-mail, discussion forums, virtual group conference rooms, and private chat rooms. There is no on-campus requirement for students completing the program fully online, nor are all students expected to be online at the same time.

ADMISSIONS REQUIREMENTS

The members of the MPA Admissions Committee look at the interest and aptitude of a prospective student as indicated by the applicant’s previous academic record, achievement on the Graduate Records Examination (GRE) if required, letters of recommendation, and past professional achievement and growth. All applicants must hold a baccalaureate degree from an accredited college or university.

Students entering the MPA program are expected to have strong computing (word-processing, spreadsheet, presentation software) skills as well as strong library and Internet research skills.

APPLICATION PROCEDURES

The Admissions Committee will review applications of prospective students regardless of their undergraduate major. The overall scholastic record and potential of the applicant are assessed. Students who wish to pursue the program may begin in the fall or the spring semester. Applications are accepted on a rolling basis. Admission decisions are made according to published deadlines.
Applicants to the MPA program must submit:

- A completed Marist Graduate Admissions Application
- A $50.00 non-refundable application fee made payable to Marist College
- Official transcripts from all undergraduate and graduate institutions attended
- A brief essay discussing why the applicant wishes to pursue the MPA and its relation to the applicant’s career goals
- A current résumé or a written statement describing the applicant’s work history and present responsibilities
- Two letters of recommendation, preferably at least one from a former professor.

Applicants whose undergraduate GPA is less than 3.0 may be required to submit their scores from the GRE or show evidence of strong quantitative skills. The Marist College report code for the GRE application is 2400.

TRANSFER CREDITS

Applicants with previous graduate work earned in a similar program within 10 years of starting the MPA program may request to transfer up to 6 credits toward their MPA degree. A grade of B or better is required. Courses presented for transfer must be substantially equivalent to the Marist course requirement and must be presented at the time of admission. Transfer credits require the approval of the MPA Program Director and are accepted at the Director’s discretion.

REGISTRATION PROCEDURES

Registration and payment is done online. Students are encouraged to register early and are responsible for meeting registration deadlines.

MPA PROGRAM ACADEMIC POLICIES

All students are expected to meet the following minimum standards: a semester grade-point average of 3.0 and a cumulative grade-point average of 3.0. Students who receive a course grade of C or below for six (6) credit hours will be placed on academic probation and notified in writing by the Program Director. Up to two of the courses in which a grade of C was earned may be repeated once. Students who receive an F in any class must re-take the class the next time the class is offered. Students who show a grade of C or below for nine (9) credit hours on their degree audit/transcript will be dismissed from the program. To graduate, the MPA candidate must have a minimum cumulative GPA of 3.0.

We expect students in the MPA program to maintain their matriculation by completing at least one course per semester throughout the academic year — spring and fall. While we encourage summer enrollment, we do not require students to participate in summer classes.

Any student who is compelled to leave school for even one spring or fall semester must notify the Program Director in writing to request a Leave of Absence.
Interruption of study beyond two consecutive semesters requires re-application. The admissions policy and program curriculum effective at the time of readmission will apply.

To qualify for the MPA degree from Marist College, a student must complete 39 credits of graduate work or 42 credits for those needing an internship. Candidates must complete the MPA degree requirements within seven years of acceptance into the program. Students who exceed the time limit to complete the MPA program will be dismissed. Any candidate who seeks an extension beyond the seven-year limit must submit their request in writing to the Program Director. Extensions may only be granted for unusual and serious cases and may require re-application.
Graduate Courses in Public Administration

MPA 500
Introduction to Public Administration
Introduction to Public Administration provides a general overview of the field of public administration. The course includes theoretical and practical aspects of key governmental processes, historical development of the field, contributions of social science to understanding organizations, and ethical issues in contemporary government activities.

MPA 501
Politics and Policy
Politics and Policy considers the public policy-making process with particular emphasis on the political environment. This course covers strategic and operational planning theories and practices, as well as ethical dilemmas.

MPA 502
Economics in the Public Sector
This course provides an overview of the general study of economics and the role of the government in an economy. Economics is a social science that focuses on how people (both individually and in a group) use resources in the presence of scarcity. Economists are also concerned with the distributional aspects of resources and the ramifications of resource use. The primary objective of this course is to familiarize the student with basic economic concepts and theories that have been developed to explain economic issues that are faced, decisions that are made, and policies that are implemented.

MPA 503
Public Budgeting
Public Budgeting covers the theory and practice of public budget preparation and review, governmental accounting and auditing, and political issues in the budget process. The course includes consideration of capital budgeting, revenue estimation, and the history of budget reform efforts.

MPA 505
Human Resource Management in Public Organizations
Human Resource Management in Public Organizations investigates aspects of human resources and personnel management in the public and nonprofit sector. This course introduces major issues, techniques, and trends in contemporary public personnel management, including ethical concerns, career planning, and professional development.

MPA 506
Administrative Law
Administrative Law explores the study of the legal framework of public administration. Basic principles of constitutional law and the institutions of American government are reviewed. The development of the administrative agency as a contemporary legal and social phenomenon and its relationship to other branches of government are considered. The structure of an administrative agency, its jurisdiction, powers, processes, and accountability are analyzed.

MPA 507
Technology Management for Public Managers
Technology Management for Public Managers focuses on what an individual in a managerial position should know about information technology. Social, political, and organizational effects of the technology on individuals, groups, and society are covered. Students gain understanding of how to use information management for strategic and operational purposes, learn to identify useful computer applications, and develop an appreciation for emerging managerial concerns in the information age.

MPA 508
Statistics for Public Managers
Statistics for Public Managers provides an overview of the scientific framework and empirical approaches to conducting and evaluating research studies. The course emphasizes the application of quantitative
techniques to decision making and problem-solving. Topics include descriptive statistics, probability, sampling plans, research design, analytical methods for hypothesis testing, and regression analysis. Familiarity with high school algebra is necessary.

MPA 513
Program Planning and Evaluation
Program Planning and Evaluation is an analysis of the theory and practice of designing, implementing, and evaluating public and nonprofit programs. This course develops skills in outcome measurement, survey design, and presentation of results.

MPA 521
Management in Nonprofit Organizations
As more programs are operated by nonprofit organizations, public managers must understand the “third sector.” This course provides an overview of the history, structure, and role of the nonprofit sector, including how nonprofit agencies differ from public and for-profit entities in mission, governance, funding, and staffing, and will consider current issues facing the nonprofit sector.

MPA 530
Organizational Theory and Change
Organizational Theory and Change covers the theory and practice of improving organizational effectiveness through planned, systematic interventions and change. Typical topics include analyzing organizational cultures, structures, processes, and capabilities; designing needed interventions; and assessing the motivational, educational, and other tools needed for successful implementation.

MPA 616
Global Issues in Public Administration
This course guides students through an overview of the challenges of managing public and not-for-profit organizations, which are staffed with a diverse workforce and subject to cultural and political influences beyond their obvious scope of responsibility. The course then builds on students' understanding of diversity issues, integrating them with administrative theory, as we examine ethical situations and decisions public administrators face in an increasingly globalized work environment.

MPA 660
Internship
The internship provides students with an on-site practical experience. It aims to provide students with a better appreciation of the relevance and value of the learning that goes on in the classroom. In addition, an internship experience enables students to give more careful consideration and thought to an issue, and practice using theoretical knowledge to solve practical administrative problems. Internships are three credits and graded pass/no pass.

MPA 681
US Health Care Policies and Systems
US Health Care Policies and Systems is an introduction to health care delivery systems and the policy environment they operate in, with emphasis on the American system of health care and its major issues and challenges. The course explores the dynamics of administration in health care institutions such as hospitals, nursing homes, and ambulatory care facilities, and the policy issues and controversies that shape the delivery of health care.

MPA 682
Ethical/Legal Issues in Health Care
Ethical/Legal Issues in Health Care provides the student with a fundamental knowledge of the legal system as it relates to health care institutions. The course then builds on the student’s understanding of the legal system to integrate it with administrative theory as ethical situations and decisions unique to health care administration and to the health care industry are examined.
**MPA 683  
Critical Issues in Health Care**

Critical Issues in Health Care covers topics of contemporary and controversial nature, focusing on topics such as the implementation of health care policy and the ongoing challenges of balancing margin v. mission decisions while working to ensure the long-term viability of an organization. It actively integrates historical information on health care issues with current topics under discussion in that week's news outlets. Once it helps the student develop an understanding of contemporary health care debate, it also provides tools and tactics for influencing the debate on a personal and system level.

**MPA 684  
Leadership, Power and Influence**

This course will examine the theory and practice of leadership in organizations. Traditional and modern theories of leadership will be explored, as well as the practical application of these theories in the workplace. In addition to covering the traditional concepts of leadership in organizations, the course will take an in-depth look at the power and influence a leader has over the organization and its members.

**MPA 685  
Negotiations and Conflict Management**

This course is an introduction to the theory and practice of interpersonal bargaining. The course will examine types of bargaining strategies, planning for negotiations, how to handle negotiation breakdowns, communications, power, persuasion, and ethics in negotiations, as well as international dimensions of bargaining. The pedagogical approach will largely be through experiential learning exercises based on weekly readings. Evaluations of student efforts will be based upon self-reflections, self-assessment, and personal portfolio construction, as well as in-class performance in negotiation sessions and debriefing discussions.

**MPA 688  
Ethical Management of Organizations**

This course will introduce students to the basic concepts of ethics. Students will examine ethical frameworks as they relate to business, the environment, the consumer, and the individual with an organization. Students will learn to apply these frameworks using moral decision-making techniques to real-world case studies. The class will offer students practical tools to help them recognize and address challenging ethical decisions.

**MPA 699  
Innovation in Public Administration**

This course provides an integrating experience for students. Emphasis is placed upon specific problems. Extensive research and analysis of public policy are conducted. **Prerequisites:** MPA 500, 501, 503, 505, 506, 507, 508, 513 and 530, but the expectation is that this course be taken in the student's last semester of the program. Students must have a GPA of 3.0 to enroll.
