www.apa.org American Psychology Association

In the United States, resolutions for sustainability education have been endorsed by over 300 college presidents and other higher-education associations. An excellent set of resources for teaching psychology for sustainability were developed by Britain Scott and Susan Koger and are currently available at www.teachgreenpsych.com.

<http://www.naepnet.org> National Association of Educational Procurement
Since the 1920's, NAEP has been *the* non-profit professional association primarily dedicated to serving higher education purchasing officers in the U.S. and Canada. NAEP's mission is to facilitate the development, exchange and practice of effective and ethical procurement principles and techniques within higher education and associated communities, through continuing education, networking, public information and advocacy.

www.heasc.net <http://www.aashe.org/heasc/>

Higher Education Associations Sustainability Consortium (HEASC). HEASC is an informal network of higher education associations (HEAs) with a commitment to advancing sustainability within their constituencies and within the system of higher education itself.

Can search the site for a list of colleges that have developed sustainability curriculums. David Newport, University of Boulder at Colorado is teaching a sustainability course, also an on-line course at Cornell University
