

MARIST

MARIST COLLEGE PROCEDURE FOLLOWING STUDENT COVID-19 DIAGNOSIS

Marist College has a comprehensive approach to managing the COVID-19 pandemic and this overview and flowchart is designed to help students and families understand the process in place should they need to isolate or quarantine because of COVID-19 arise.

First, if you are feeling sick or experiencing any symptoms of COVID-19 (cough, shortness of breath, or a fever equal to or greater than 100.3° F), you should contact Health Services to seek care at **(845) 575-3270** or Health.Services@marist.edu, which is open Monday through Friday from 8:30 am–5:00 pm. Outside of these hours, students can contact the Office of Safety and Security 24 hours per day, seven days per week at **(845) 471-1822**. If you are tested through health services, you will be directly contacted by that office about the results. If you take a test through another provider, you must contact Health Services to notify them of the positive test.

- The College quarantine and isolation policy requires that students and employees safely return home or to other off-campus locations for the time duration required. Marist is only providing general isolation or quarantine facilities on a limited case-by-case basis.
- Any member of the Marist community who tests positive for COVID-19 will need to isolate for 10 days per College policy regardless of vaccination status.
- Students who test positive for COVID-19 are responsible for notifying Marist Health Services. Once reviewed, Marist Health Services staff will notify the Center for Advising & Academic Services (CAAS) about the students' isolation requirements. CAAS in turn will send an absence notification to the students' professors. Students are required to also contact their individual professors in order to create a plan to continue their coursework during their isolation.
 - A single point of contact to assist any student in this process is our Center for Advising & Academic Services Office, which is available at **(845) 575-3500** or advising@marist.edu.
- Students who test positive for COVID-19 will be contacted by Marist's in-house contact tracing team. It is expected that students will cooperate fully with the contact tracing team member, with the goal of identifying individuals who might have been exposed.
- Students who are not fully vaccinated or who have an approved exemption must quarantine if exposed to COVID-19 and are determined to be a close contact.

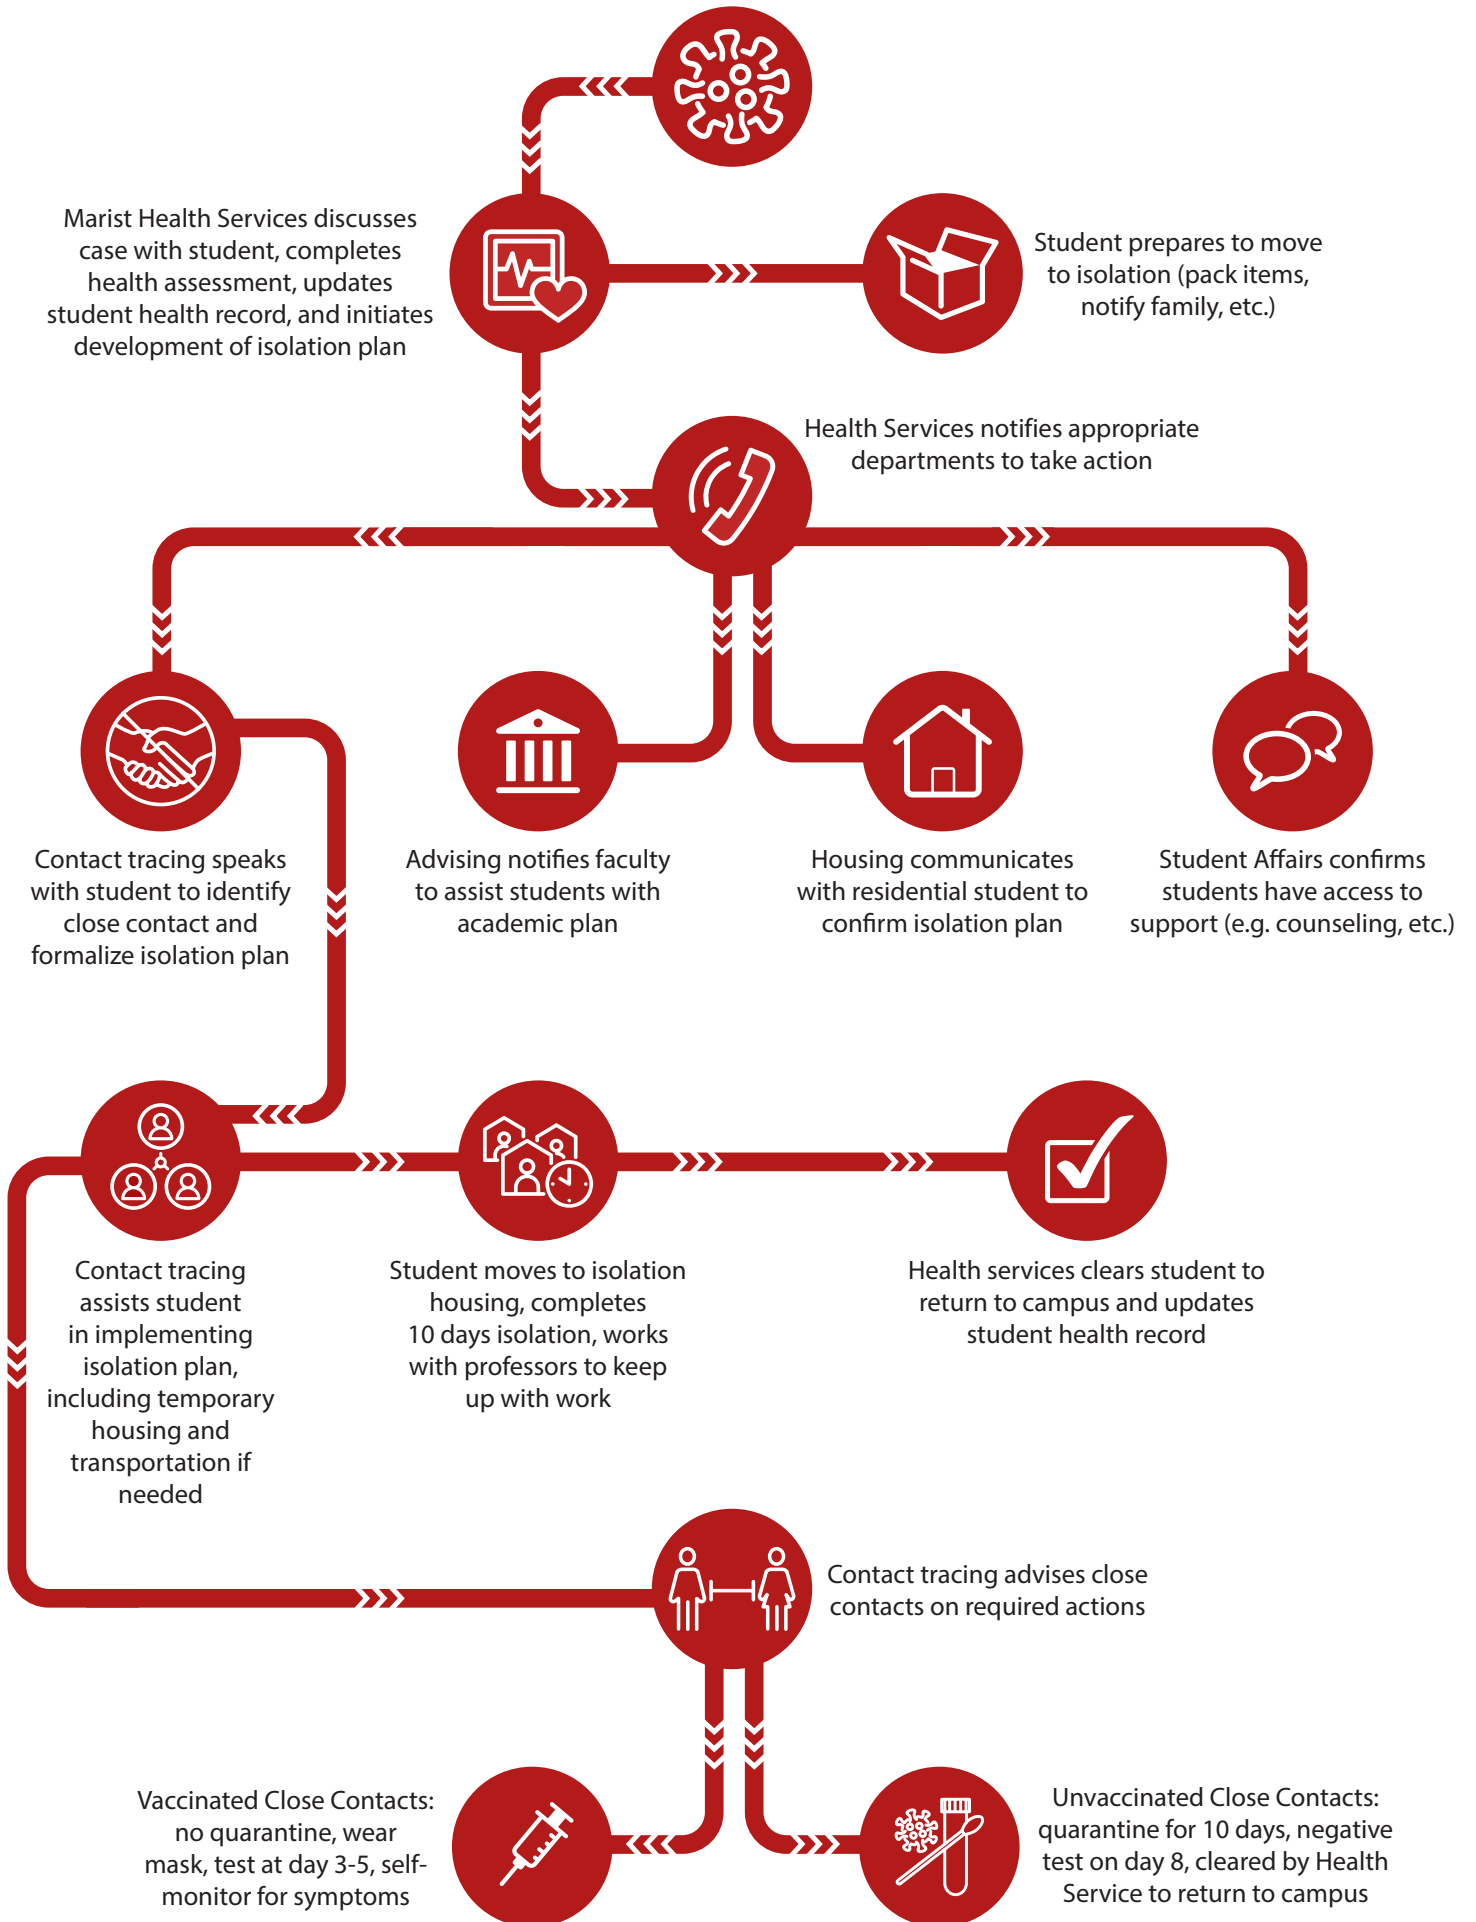

As always, the Marist community is committed to transparency. You may view our vaccine policy, COVID-19 dashboard, and all other health and safety resources by visiting marist.edu/reopen.
