

The student will receive two Marist accounts:

**1. Marist Guest Account** – Short term, sponsored account that is needed to access Marist services.

Personal computers may be brought for use on campus with the guest account. Below are the requirements for specific Operating Systems:

### Windows

- To access network resources open a web browser to be re-directed to the login page. Use Marist guest account credentials to login.
- Can use the Cisco NAC (Network Admission Control) web agent instead of installing the Client on the PC.
- Current version of Java is required to run the Cisco NAC web agent.
- Some form of “mainstream” anti-virus, with the most current .DAT files (virus definitions), is required. If you do not have anti-virus software, a free program, like Avast, is also acceptable.
- The latest available Windows updates are required.
- User needs the ability to install any missing requirements (Administrative Access).
- Windows Operating Systems prior to Windows Vista are not allowed on the network. (Win95/98/ME/XP, etc.)
- To use the Wireless network, the Cisco AnyConnect is required.

### Mac

- To access network resources open a web browser to be re-directed to the login page. Use Marist account credentials to login.
- Mac Operating Systems prior to Mac OS 10.6 are not allowed on the network (Mac OS 9, Mac OS 10.3, Mac OS 10.4, etc.)
