MIPO & Its 200: A Blended Model to Prepare Students While Saving Time

Daniela Charter & Mike Conte
Marist Institute for Public Opinion

After an exciting and extremely busy Election 2016, Daniela Charter and Michael Conte of the Marist Institute for Public Opinion (MIPO) will share their secrets on how to effectively train, motivate, engage and oversee 200+ student interviewers. This session will explore the interactive activities and time saving techniques MIPO uses and facilitates through the use of iLearn which will include the following topics:

- Disseminating rich media materials to a large number of students
- Engaging students with interactive activities
- Providing hands-on experiences instead of lecture based materials
- Monitoring student progress closely

Their tips and tricks will be useful for a variety of audiences including faculty, counselors, advisors, coaches, staff and more.

➤ **WHERE**
Library 305 & virtual attendance available

➤ **WHEN**

Daniela Charter

is Director of MIPO's Survey Center. She received both her BA in Political Science and MA in Public Administration from

Marist College. She currently oversees data collection at MIPO's survey center including the training and supervision of interviewers. Daniela is also an adjunct instructor for the Political Science Department.

Mike Conte

is MIPO's Assistant Director of the Survey Center & Data Management. He received both his BA in Business Marketing and his MBA from Marist College.

Mike works closely with both the Director of the Survey Center and the Director of Data Management to coordinate the Poll's data collection operations. A MIPO alum, Mike has held a number of different positions within the organization, including Survey Interviewer, Polling Assistant, Graduate Assistant, as well as his current full time position.
