

Jean-Claude Fouéré, Principal, NE Technology Associates

With a dual Master of Science in Physics Engineering (I.N.S.A., France) and in Optical Systems (U. of Rochester, NY), I have worked for twenty years as an engineer, an engineering manager and company general manager, followed by another twenty years developing systems used in the manufacturing of semiconductors, and marketing them in North America, Western Europe and Southeast Asia.

I have taught Photovoltaic Systems and Solid-State Lighting at local community colleges, and International Marketing at Marist College. Currently active with the World Affairs Council and SCORE of Dutchess County.
