A-	94-90%	C+	79-77%	D	64-60%
B+	89-87%	C	76-73%	F	59% or below
B	86-83%	C-	72-70%		

As found in the [Marist College Undergraduate Course Catalog](#), the grading system is as follows:

A - An A student is one who, in addition to all the qualities manifested by a B student, seeks mastery of a special field by reason of individual interest; has initiative and originality in attacking and solving problems; shows ability in rethinking problems and making associations and in adapting to new and changing situations; moreover, has an appropriate vocabulary at their command.

B - To earn a B grade a student must manifest all the qualities characteristic of a C student and in addition reveal a memory that encompasses more than the basic elements of a course; has a more personal grasp of the principles of the course and perceives wider application of them. The student should be able to discuss the subject matter of the course with ease.

C - To earn a C grade a student must be able to recall the basic elements of a course, understand the essential background and materials of a course, apply the basic principles involved, and express them intelligibly.

D - A student who is deficient in some degree in any of the areas that are characteristic of a C grade will earn a D.

F - The student has failed to show mastery of the basic subject matter for the course.

The grades of B+, C+, D+, A-, B-, C- are used to indicate that a student has shown more or less than the usual competency required for that grade.

Multiple absences imply insufficient knowledge and inadequate participation, thereby leading to a lower grade.

At Marist, we strive to create an environment that reflects the diversity of our nation and the world, ensuring that all members of our community feel welcomed, valued, and supported. We want everyone to know they are welcome here: people of different races, ethnic groups, religions, sexual orientations, and political views, as well

as women, veterans, and those with disabilities. A diverse and inclusive community allows our students to develop the qualities they need for effective collaboration and leadership in today's global society. The College is committed to expanding access to education and fostering a culture of active engagement, reflection, and growth in the Marist community.

The college's academic mission is immeasurably enriched by students with diverse experiences. Our finest efforts as intellectual beings heavily rely on the exchange of ideas. Interactions in our classrooms among persons and groups with diverse backgrounds, ideologies, and experiences facilitate these efforts by allowing us all to be more reflective about the varied historical and social contexts in which we work and learn. For faculty and students to continue being leaders inside and beyond academia, we must ensure that we consider the diversity of all who comprise our communities and foster a climate in which those diverse influences are respected and valued.

In this course, we will challenge each other's thinking while working collaboratively to ensure that the classroom is a space of safety and bravery. Our classroom offers an environment where individuals of varying opinions, experiences, and backgrounds are able to be free to learn without fear of being silenced. Evidence of these efforts will manifest in readings, lectures/class discussion, seminars, and group projects. Aspects of diversity include, but are not limited to, race, ethnicity, color, nationality, sex, gender, gender identity, gender expression, class, sexual orientation, religion, age, ability, and veteran status.
